

**SAMPLEOPTIMIZER™
FEE SCHEDULE**

**FEDERAL GOVERNMENT EMPLOYEES AND CONTRACTORS
FOR USE ONLY ON FEDERAL SITES**

SOFTWARE.....	Per site
SampleOptimizer™ (ESTCP ¹ release version)	Free ²
Updates	\$25 / sampling location / year

OPTIMIZATION CONSULTING.....	Per site
Importing + Analysis + Optimization + Reporting	\$12,000 (on average)

Data must be provided in a suitable electronic format. Summit will provide an estimate of total cost after reviewing site data. Includes one free license of SampleOptimizer™ and EPIPHINY® (updates not included) and a Microsoft Access®, SQL Server®, or MYSQL® database upon delivery of optimization report.

SUPPORT.....	Per Individual
Training	\$800 / day plus expenses (2 days recommended)

Training can be provided at your office or our offices in St. Paul, Reno, or Seattle. Training is designed to be hands-on, using your actual site data, and will result in your data being imported into EPIPHINY® and optimization run(s) in SampleOptimizer™ completed under our expert supervision.

Web-based training	\$400 for 3-hour course
--------------------	-------------------------

OTHER

Ala-carte support / consulting	\$110 / hour
EPIPHINY® Software ² (one license)	\$1,000
EPIPHINY® Software (five licenses)	\$3,500

Footnotes:

1. ESTCP version is the version of the software as demonstrated under the Environmental Security Technology Certification Program (ESTCP) Project No. ER-0629.
2. SampleOptimizer™ is licensed to the federal government and their contractors on a per site basis. All users must complete a license application form prior to using the software on each site.
3. EPIPHINY® is a software program that automates the import, query, analysis, and export of environmental data. EPIPHINY® can be connected with any database or spreadsheet file.
