Summit Envirosolutions®

SAMPLEOPTIMIZER™
FEE SCHEDULE

SOFTWARE……………...**Per site**

SampleOptimizer™	$100 / sampling location[1]
Updates	$25 / sampling location / year

OPTIMIZATION CONSULTING...**Per site**

Importing + Analysis + Optimization + Reporting	$12,000 (on average)

Data must be provided in a suitable electronic format. Summit will provide an estimate of total cost after reviewing site data. Includes one free license of SampleOptimizer™ and EPIPHINY® (updates not included) and a Microsoft Access®, SQL Server®, or MYSQL® database upon delivery of optimization report.

SUPPORT..**Per Individual**

Training	$800 / day plus expenses
	(2 days recommended)

Training can be provided at your office or our offices in St. Paul, Reno, or Seattle. Training is designed to be hands-on, using your actual site data, and will result in your data being imported into EPIPHINY® and optimization run(s) in SampleOptimizer™ completed under our expert supervision.

Web-based training	$400 for 3-hour course

OTHER

Ala-carte support / consulting		$110 / hour
EPIPHINY® Software[2]	(one license)	$1,000
EPIPHINY® Software	(five licenses)	$3,500

Footnotes:

1. For example, if your site has 20 wells, the license will cost $2,000 and allow for unlimited use of SampleOptimizer™ on that site on up to 3 computers. Purchaser must complete a license application prior to using the software. *Includes one year of free updates.*

2. EPIPHINY is a software program that automates the import, query, analysis, and export of environmental data. EPIPHINY can be connected with any database or spreadsheet file.
